P-O-R-T-E-R BEE-ESCAPE

For getting bees out of the super automatically before removal from the hive. It is a combination of speed, safety and satisfaction that saves honey, time and money for the user. As a labor-saving device it has no superior. Avoids "breaking the back" in shaking heavy supers to get the bees out. Leading beekeepers the world over use these Escapes and give them their unqualified endorsement.

Single Escape. Each, 15c; per doz., \$1.65

Double Escape. Each, 20c; per doz., \$2.25

All Porter Escapes fit the same size opening in Escape-board. For sale everywhere by dealers in Beekeepers' Supplies.

If you have no dealer, order from factory, with full instructions.
